Building Industry's Productivity “Growth”

Problem x Solution

Problem:

Current workflow is too complex and real digitalization is missing.

How it
looks like to
designers

Solutions:

BIM model as data, no files
and automatically as a
service

aecmaster software

Plugins

GRAPHISOFT
Archicad[®]

Tekla[®]

Revit

Release dates for Tekla and Revit
plugins to be announced later

```

Current Status and Call-to-Action

Current status:

**Next generation BIM technology ready for piloting
Commercial launch by end of 2023**

Call-to-action:

- **Welcoming interested investors to join funding round to support sales and internationalization**
- **Looking for pilot customers and projects, Archicad user can “jump the queue”**
- **Come to talk more at our stand!**
